Re: Colorado School of Mines Research Institute, Creekside  
SW JFR COL 1.1

Dear Mr. Spencer:

On October 24, 2002 we discussed the ongoing clean up project at the Colorado School of Mines Research Institute's Creekside site. You requested that a written confirmation be addressed to you that confirms that the Solid Waste Unit of the Department's Hazardous Materials and Waste Management Division is still in agreement with the plan for the site clean up. On August 21, 2002 a joint letter signed by representatives of this Division and the Laboratory and Radiation Services Division was sent to Robert Krumberger of your firm regarding this clean up. On October 16, 2002 a follow-up letter was sent to you from the Laboratory and Radiation Services Division concerning this clean up. The Solid Waste Unit is in concurrence with both of these letters.

I understand that the project is now under way. If you have further questions regarding this matter I may be reached at 303/692-3445.

Sincerely,

  
Glenn F. Mallory  
Solid Waste Unit Leader  
Compliance Program
